

ISPAD Fellowships 2009

ISPAD has 2 available fellowships for 2009, and both are intended to cover travel and living expenses during the time of the project. Applications are now invited for the 2009 fellowships:

Research Fellowship:

This grant for members below age 40 is designed to cover expenses for a 6 month's (or longer) visit in an ISPAD member's centre and can be applied for by ISPAD members or other young researchers who wish to study or carry out diabetes related research at a recognized centre of excellence. The individual applicant needs to have a project which can be at least in part accomplished in that time frame, with good science. A letter of support from the member in whose center they will be working should also be provided. This needs to attest to the acceptance of not only the person applying, but the project and the support of the applicant in their center. We recently have increased the funding for this competitive fellowship to 25,000 USD. The recipient will give credit to ISPAD on any publication arising from any work done during the fellowship. If applicants are not members of ISPAD at the time of application they will be expected to apply for membership before the commencement of the fellowship.

Clinical fellowship:

This is the Alan Drash Clinical Fellowship for ISPAD members below age 45 and is currently for 5,000 USD. It is intended for spending time (approximately 6 weeks) at an ISPAD centre of excellence to learn for example programmatic issues, clinical care, setting up a program or learning how to set up a clinical study. The ISPAD member needs to send a letter of support for the applicant, indicating what that individual will be doing in their program. The applicant needs to state the reasons for choosing that center, and a description of their objectives and goals.

Applications should include:

- CV, current place of employment and position
- The aims of the visit to the centre of excellence
- A research plan or outline of the study/project to be undertaken
- The expected outcome and benefits particularly to the applicants own center
- A letter of recommendation from their own centre
- An acceptance letter from the research director/ISPAD member in charge at the nominated centre of excellence
- Proposed dates of the visiting fellowship

Deadline for applications of both fellowships is June 1st. The decision will be taken by the steering committee in connection with the ADA meeting. A report should be published on the ISPAD website within 1 year after completed fellowship.

Please send applications by e-mail to the Secretary General:
