FEEDBACK

‘Great organisation prior. Fantastic 3 days, feel very privileged to be part of...thank you’

Found the last two days to be so incredibly helpful. I will forever treasure this experience. Intellectually it was very well organised in all aspects of research, but more importantly the experience and network with colleagues from different parts of the world was really refreshing.’

FEEDBACK

‘All of the information has been so helpful in providing guidance to my research question and method....my main concern is how long it will now take for it to be implemented and how I will need to gather support.’
